MANUAL REVERSE STACKER

Ruger | **Manual**

Ruger stackers feature all welded steel construction to minimize deflection as well as US-made hydraulic pumps and accessories. Hydraulic units feature automatic release valves for overload protection while battery-powered units include recharging systems.

Counter-Balanced Reverse Style Stacker is Ideal for Light-Duty Limited Clearance Lifting Applications.

Ruger®

- Push / pull reverse style stacker is available with either a lever actuated hydraulic pump or a manual winch.
- Each 1,000 pound capacity stacker includes a counterweight.
- Powered lifting is also available as an option with either a 110 volt plug or a rechargeable DC battery system.
- Phenolic wheels are standard.
